DETAILED ACTION

Response to Amendment

Response to Arguments

1. Applicant's arguments, see page 6, lines 2-5, filed 09 October 2003, with respect to claims 1-5 and 9 have been fully considered and are persuasive. The 35 U.S.C. 102 and 103 rejections of claims 1-5 and 9 have been withdrawn.

Allowable Subject Matter

2. Claims 1-5, 9, 11-18, and 28 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As noted by Applicants in page 6, line 10 to page 7, line 23 of the reply filed 09 October 2003, Shutic '599 does not teach or fairly suggest the apparatus of claim 28 having a separate continuous air chamber above each of the rows of discreet powder reclamation collectors having generally parallel side walls joining the side walls of the

powder reclamation collectors providing a continuous air plenum bridging the inlets of the powder reclamation collectors.

Rombach et al. discloses an underbooth powder collection apparatus positioned beneath a paint application booth having an air circulation system for painting a product with particulate paint comprising a row of adjacent discreet powder reclamation collectors (52,53,54) having generally parallel side walls and opposed generally abutting end walls, an upper inlet and a lower outlet for reclaiming paint particles, and a continuous air chamber (not numbered, area above 52,53,54) above the row of discreet powder reclamation collectors having generally parallel side walls joining the side walls of the powder reclamation collectors providing a continuous air plenum bridging the inlets of the powder reclamation collectors having an inlet receiving air and particulate matter paint from said paint application booth and a continuous outlet directing air and particulate paint into said inlets of said powder reclamation collectors in Figs. 1-7 and col. 3, line 29 to col. 7, line 40.

Rombach et al. does not disclose the apparatus comprising at least two spaced rows of adjacent discreet powder reclamation collectors having a separate continuous air chamber above each of said rows of discreet powder reclamation collectors.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
